This webinar has been developed, organised and funded by Eli Lilly and Company Ltd. Intended for Healthcare Professionals only. Lilly products will be discussed at this meeting

This webinar includes comprehensive information on Lilly products and/or devices, with an approved indication in a set group of countries. It is intended for a specific group of Healthcare Professionals (HCP) working on a country within the list, and invitations have been sent by Lilly personnel only to these HCPs. If you have not received the invitation from a Lilly employee, please ask your Lilly contact if the content is approved in your country.

## Speakers

Prof. Taroh Satoh

Dr. Satoh is a Professor at the Department of Frontier Science for Cancer and Chemotherapy, Osaka University Graduate School of Medicine, Japan. He is a certified doctor at the Japan Society of Internal Medicine, Japanese Society of Gastroenterology and Japanese Society for Medical Oncology. He is also involved in numerous cancer drug trials in gastric cancer field:

- RAINBOW, RAINFALL, RAINSTORM, RINDBeRG (PI: principal investigator)

- Attraction-2, KEYNOTE-061, KEYNOTE-062 etc.

He has published widely in many international journals as first author of TyTAN trial and QOL analysis of ToGA trial etc.

He is the leader oncologist in gastric cancer and other GI cancer field in Japan

Prof. Florian Lordick

Dr. Lordick is a Full Professor of Oncology at Leipzig University, Germany. He is director of the University Cancer Center Leipzig since 2012. In 2018 he was additionally appointed as director of the department of oncology, at the Leipzig University Medical Center, Germany. Since 2020 he also chairs the department of Medicine II (oncology, gastroenterology, hepatology, pulmonology, and infectious diseases) at the same institution.

Professor Lordick is a member of the board of directors of the German Cancer Society (DKG). He is chairman of the EORTC GI Tract Cancer Working Group (2018-2020) and since 2020 he is director of education of the European Society for Medical Oncology (ESMO). He is also the current President of the International Gastric Cancer Association (IGCA; 2019-2021).

Dr. Lordick's scientific focus is the clinical and translational research in gastrointestinal cancer. His research is funded by the German Cancer Aid, the German Ministry of Education and Research and by the European Commission. Dr. Lordick has authored and co-authored more than 300 peer-reviewed articles. He is editor-in-chief of the Forum (Springer), the official journal of the German Cancer Society, editor of Gastric Cancer (Springer), the official journal of IGCA and he is an editorial board member of Annals of Oncology, the official journal of ESMO.
