# WELCOME

The fifth edition of the ESMO Asia Congress, taking place once again at the vibrant Suntec Singapore Convention & Exhibition Centre, gathers the most experienced international experts to present a comprehensive, regional approach to multidisciplinary oncology. ESMO offers an ideal platform for science, ensuring that the best of modern oncology advances is applied to the most burning issues of prevalent cancer types in the region, and also for education with a high-quality programme designed to share standards of care for the benefit of cancer patients.

We invite you to save the date for ESMO Asia 2019, 22-24 November.

**Josep Tabernero**, Spain  
ESMO President 2018-2019

**Rebecca Dent**, Singapore  
ESMO Asia 2019 Scientific Chair
